A. GUIDELINES FOR INTERPRETING THE REPORT

The teacher evaluation report is for developmental purposes and is meant to help identify strengths and areas for improvement. Please consider the following recommendations that will aid in interpreting the results:

1. Examine the report by taking note of patterns in order to consider how best to act on the feedback your students have taken the time to provide. Use the reflection section at the end to reflect upon how you might act on the feedback.
2. These evaluations stem from student perception and thus constitute one source of evidence among others as to the quality of your teaching. Any response to the feedback should be based on the most representative results rather than on outlying responses.
3. Upon getting a general sense as to what has gone well, and which areas may require attention and improvement, it is important to drill down to the related questions. These questions can help guide future action if feedback from students suggest areas for improvement.
4. Keep both the likert scale and written comments in mind while reading through the report. High scores (4+) suggest student consensus indicating a strength. On the other hand, low scores (2-) should be considered as an area that requires immediate developmental focus based on student feedback.

D. STRENGTHS

What are LEE ZHENG YAO, DANIEL's strengths?

Comments
Prepares well for each tutorial, all content covered is always relevant to how we will be tested for the module. Also available for ad-hoc questions/consults whenever asked.
very fast to respond
NIL
His tutorials value add a lot to the contents covered in lectures and assignments as the materials he prepared are interesting and promotes thinking during lesson time. He also actively engages the class to participate.
very helpful, provides challenging questions and goes through them with the class
He is very patient when answering questions. I appreciate the lecture content recaps that he provides at the start of each tutorial class, and also the more challenging questions that he gives to stretch our minds at the end of each class.

E. AREAS FOR IMPROVEMENT

What improvements would you suggest to LEE ZHENG YAO, DANIEL?

Comments
NIL
To manage time in tutorial better as some tutorials felt rushed to cover contents.
Nothing.

F. SELF-REFLECTION

1. When comparing these results to the previous year's results, what areas have shown improvement?
2. What areas remain to be improved and what are the necessary steps / actions to do so?
3. Are there colleagues who could potentially guide me?
4. Are there issues that require departmental or institutional support?
